The above printed combination order form and price list is for your convenience. Prices quoted are for cured bulbs as received from Holland. When bulbs arrive in the fall of the year, shipping starts immediately and without exception, orders are processed and filled in rotation as of date received throughout the year.

At times and when available, but always in limited quantities, I have and do supply bulbs taken from either the test trial group or a reserve group used for exhibit or show display but, not until after they have served their purpose. For price on these bulbs which were selected for their quality, add 10% to the above printed price.
